SUMMARY

Computer Science undergraduate with strong foundations in Data Structures, Full Stack Development, and Machine Learning. Experienced in building AI-driven and web-based applications, including recommendation systems and real-world management platforms. Skilled in problem solving, API integration, and developing scalable solutions. Passionate about applying AI and software engineering to solve real-world problems.

SKILLS

- **Languages:** Python, Java, SQL
- **Core:** DSA, OOP, Operating Systems, Computer Networks
- **Web Development:** HTML, CSS, JavaScript, Django
- **Databases:** MySQL, MongoDB
- **AI/ML:** Machine Learning, Data Preprocessing, Model Evaluation, scikit-learn, Generative AI (basics)
- **Tools:** Git, Jupyter Notebook, REST APIs

WORK EXPERIENCE

Edunet Foundation

AI intern

13 May 2025 - 13 June 2025

- Gained hands-on experience in Artificial Intelligence and Machine Learning concepts
- Designed & developed a Blood Bank Management System to handle donor data and emergency requests
- Implemented data handling and backend logic for efficient blood availability tracking
- Documented project workflow and presented outcomes as part of evaluation

PROJECTS

AI Driven DSA Learning Assistant [↗](#)

- Built an AI-based platform to recommend DSA problems based on user performance
- Implemented performance tracking and adaptive problem recommendation logic
- Designed a structured roadmap from beginner to advanced level
- Developed hint system to guide users during problem solving

Blood Bank Management System [↗](#)

- Developed a full-stack web application for managing blood donors and requests
- Implemented donor registration, blood availability tracking, and request handling
- Built backend using Django and integrated MySQL database
- Designed user-friendly interface for real-time data access

Smart Ambulance Route Optimizer [↗](#)

- Developed system for optimizing routes using real-time traffic data
- Integrated ML-based crowd prediction to improve routing decisions
- Implemented nearest hospital detection using geolocation APIs

EDUCATION

Malla Reddy Engineering College For Women

Bachelor of Technology(CSE) - 8.80

2023 - 2027

ACHIEVEMENTS

- HackerRank Gold Badge in Problem Solving
- Secured All India Rank 9441 in Naukri Campus Turks 2025 coding challenge
- Qualified Round 2 in CodeQuest 2026 – National AI Agents Build Challenge
